

CHEOL KIM (김철)

+82-10-4149-0390 | cheolkim02@gmail.com

RESEARCH INTERESTS

Vision-Language-Action (VLA) · Agentic AI · Large Language Models · Information Retrieval

EDUCATION

Sungkyunkwan University (SKKU) March 2022 – August 2027 (expected)

B.S. in Computer Science and Engineering, College of Computing and Informatics

- Selected coursework: Computer Vision, Fundamentals of Machine Learning

McLean High School · Virginia, United States

August 2018 – June 2021

RESEARCH EXPERIENCE

CSI Agent Lab, Sungkyunkwan University

September 2026 – December 2026 (ongoing)

Undergraduate Research Project, advised by Prof. Honguk Woo

Dexterous Hand Robot AI Development

Simulation-based data generation and imitation learning for a five-task dexterous manipulation policy.

- Building simulation environments for manipulation tasks, generating the training demonstrations, and training the hand by **imitation learning for transfer to physical hardware**.

DIAL Lab, Sungkyunkwan University

August 2025 – August 2026

Undergraduate Research Intern, advised by Prof. Jongwuk Lee

Ambiguity Resolution for Text-to-SQL (Academic Research)

With a first-year Ph.D. student; manuscript prepared for VLDB submission.

- Co-designed a **reasoning-intensive** training-free method that resolves ambiguous questions by pruning candidate interpretations against database contents, **improving recall by 11.2% over zero-shot baselines on AMBIQT** while returning five candidates on average.

Text-to-SQL for Manufacturing Databases (Industry Research)

Collaboration with Wezon on a natural-language interface for a production database.

- Built a 5,000-pair question-SQL dataset with a graduate student and **proposed embedding-based diversity metrics** to correct sampling bias; benchmarked and fine-tuned open-source LLMs for the delivered pipeline.

INDUSTRY EXPERIENCE

Samsung SDS

June 2026 – August 2026

Summer Intern, Architecture Group, ERP Technical Team

- Selected as **one of five interns through nationwide open recruitment**.
- Completed a two-week SAP ERP integration consulting assignment and presented the results to department leadership.

TEACHING EXPERIENCE

Teaching Assistant · Freshmen Programming Preparatory Course, SKKU

February 2025

- Advised student-led team projects in a two-week Python course; the supervised team was one of five recognized among 28 by TA evaluation and student vote.

Instructor, Introductory Programming · Suwon Christian International School

March 2025 – July 2025

- Taught a semester-long Python and computing course to middle and high school student groups.

TECHNICAL SKILLS

Languages: Python, C **Frameworks:** PyTorch, Hugging Face, vLLM **Tools:** Git, Linux, Weights & Biases

LANGUAGES

Korean (Native) · English (Fluent) — TOEIC 985/990 | TOEFL 113/120
